Modules completed

7

Learning paths completed

1

Training hours completed

7 hr 32 min

Learning paths completed

N/A means either not all module assessments exist or there is no pass record. All Learning Paths in this table are complete.

Learning path title	Description	Completed on	All module assessment results
Develop generative AI apps in Azure	Learn how to develop generative AI apps in Microsoft Foundry. (AI-3016)	Nov 4, 2026	All module assessments passed Nov 4, 2026

Modules completed

N/A in the module assessment result column means either the module assessment doesn't exist or there's no pass record for it. All modules in this table are complete.

Module title	Description	Completed on	Duration	Module assessment result
Responsible generative AI in AI Studio	A practical approach to implementing generative AI responsibly, and exploring content filters in AI Studio.	Nov 4, 2026	45 min	Module assessment passed Nov 4, 2026
Optimize generative AI model performance with Microsoft Foundry	Explore complementary strategies to optimize generative AI model performance, including prompt engineering, system messages, model parameters, Retrieval Augmented Generation (RAG), and fine-tuning. Learn when to use each strategy and how to combine them.	Nov 4, 2026	2 hr 11 min	Module assessment passed Nov 4, 2026
Develop generative AI apps that use tools	Tools enable models to perform tasks and interact with external systems, enabling them to extend their capabilities beyond basic chat interactions.	Nov 4, 2026	1 hr	Module assessment passed Nov 4, 2026

Module title	Description	Completed on	Duration	Module assessment result
Develop an AI app with the Microsoft Foundry SDK	Use the Microsoft Foundry SDK to develop AI applications with projects and the Responses API.	Nov 4, 2026	53 min	Module assessment passed Nov 4, 2026
Select, deploy, and evaluate models from the catalog in Microsoft Foundry portal	Explore how to select appropriate models from the model catalog using benchmarks, deploy them to endpoints, and evaluate their performance using manual and automated approaches in Microsoft Foundry portal.	Nov 4, 2026	1 hr 3 min	Module assessment passed Nov 4, 2026
Plan and prepare to develop AI solutions on Azure	Microsoft Azure offers multiple services that enable developers to build amazing AI-powered solutions. Proper planning and preparation involves identifying the services you'll use and creating an optimal working environment for your development team.	Nov 4, 2026	1 hr	Module assessment passed Nov 4, 2026

Module title	Description	Completed on	Duration	Module assessment result
Get started with AI on Azure	Get started with AI on Azure	Nov 4, 2026	40 min	Module assessment passed Nov 4, 2026
