Profile

2D/3D Game Developer, Web Developer, UI/UX Designer, and 3D Modeler.
Looking for opportunities in any of these fields to enhance my skills and contribute to creative projects.

Skills

- Front-End Development
- UI/UX Design
- 3D Design
- Game Development (2D/3D)

Technologies

HTML, CSS, JavaScript, TypeScript, Bootstrap, Tailwind, Python, GD Script, Lua, Unity, Godot, C, C++, C#, Blender

Projects

- **Football Simulator** (Unity/C#)

A football match simulation with player editor, team selector, and AI support. Each role calculates the overall performance based on different skill schemas.

[Project Link](#)

- **Pekka Kana** (Godot/GD Script)

A 2D platformer game set in Rooster Island. It includes scoring mechanics, enemy behavior system, smooth background transitions, and quicksave.

[Project Link](#)

- **ROTA** (Godot/GD Script)

A gravity-based puzzle platformer. Rotate gravity, move blocks, collect gems, and explore 8 colorful worlds.

[Project Link](#)

- **Portfolio Demo** (HTML/CSS)

A demo portfolio to showcase skills and UI concepts.

[Project Link](#)

- **Blog Demo** (HTML/CSS/JS)

A landing page showcasing blog-style UI with clean layout and animations.

- **Emogo Emoji & Symbols**

A web app with blog and ASCII art generator using Tailwind CSS.

- **Online Shop Demo**

A modern landing page designed as a mockup for an online store.

- **3D Models**

Check models on Sketchfab: sketchfab.com/fuuytf1
